Dear Colleague,

The Home Care & Hospice Association of New Jersey is pleased to present you with our 2017-2018 Membership Directory & Referral Guide. The Directory includes detailed information about our members: Home Health Agencies, Health Care Service Firms, Hospices and our Industry Partners. We encourage you to use the directory as a resource to connect consumers with qualified providers throughout New Jersey.

The directory also includes useful information and tools related to emergency preparedness, funded in part by a grant from the NJ Department of Health. We encourage you to share these materials with your co-workers, clients, families and the community.

Our members are dedicated to providing the highest quality, cost-effective care to all home and hospice patients in New Jersey. Having served the community for decades, our members are ready to serve your patients.

The mission of our association is to serve as the catalyst for excellence in home care and hospice. Our goals are to inform, educate, assist and advocate on behalf of our members who service home care and hospice patients. We are ready to assist you and the communities you serve.

Christine Buteas
President & CEO

The Home Care & Hospice Association of NJ is incorporated in the State of New Jersey as a 501c (6) organization. The Association is an independent state entity, but maintains membership with the National Association for Home Care and Hospice (NAHC), National Hospice and Palliative Care Organization (NHPCO), NJ Business and Industry Association, the Council of State Associations and the Visiting Nurse Associations of America (VNAA).
Home Care & Hospice Association of NJ Overview

The Home Care & Hospice Association of NJ is the non-profit Association which represents and advocates for the full scope of home care and hospice agencies in our state. The Association was founded in 1973 by a group of New Jersey home health agencies. Since that time it has continued to grow, while still providing the same advocacy and education for which it was founded.

Our Mission is to serve as the catalyst for excellence in home care and hospice.

Our Goals are to inform, educate, assist and advocate for home care and hospice providers and the patients and families they serve throughout New Jersey.

Our Members include licensed home health agencies, licensed health care service firms, licensed hospices, and organizations that offer services and products that support home care and hospice.

Join the Home Care & Hospice Association of NJ today by visiting www.homecarenj.org.

ABOUT HOME CARE & HOSPICE IN NJ

››Services:

Home Care and Hospice offers a broad range of health care and supportive services to people in their place of residence. Based on the type of agency, services may include some or all of the following:

- Professional nursing (RN and LPN)
- Certified Home Health Aides (trained for medical and personal care)
- Therapies: physical, occupational and speech-language
- Medical social services and counseling
- Homemaker and Companion Services (non-medical, no personal care)
- Infusion therapy and specialized high-technology services
- Laboratory and diagnostic services
- Case management services
- Nutritional support therapies and counseling
- Behavioral and mental health counseling and support services
- Preventative health and wellness programs
- Hospice and bereavement services
- Telehealth services

››Types of Agencies:

Licensure is a quality control which gives consumers the protection of state regulations and oversight. There are three types of agencies in New Jersey that are licensed to provide direct hands on care to consumers in their place of residence:

- Home Health Agencies
- Health Care Service Firms
- Hospices

In addition to licensure, an agency may have one or more of the following:

- Accreditation- ACHC, CAHC, CHAP, NAHC, NIHCA and TJC. Accreditation will be required for all health care service firms.
- Medicare Certification- required for care to be reimbursed by Medicare and for certain Medicaid services.
- Medicaid Approval- required for home health aide and private duty nursing care to be reimbursed by Medicaid.

››Certified Home Health Aides:

NOTE: In the state of NJ, Certified Home Health Aides (CHHAs) are permitted to work only for licensed agencies and under the supervision of a registered nurse. They are NOT permitted to practice independently. CHHAs receive training and certification and also must go through a criminal background check process. CHHAs are re-certified every two years by the NJ Board of Nursing.

McCarter & English, LLP
is proud to support the

Home Care and Hospice Association
of New Jersey
in promoting home care and hospice excellence.

About our Health Care Practice
McCarter & English’s interdisciplinary Health Care Team addresses the ever-changing business, regulatory and legal issues facing home care and hospice providers, including those concerning HIPAA compliance, fraud and abuse counseling, operations and corporate governance policies, licensure, contractual and transactional arrangements, and wage and hour record keeping and compliance.

The mission of Homeside Hospice is to provide physical, emotional, social and spiritual support to terminally ill patients, as well as to their families and loved ones, while assisting patients and families to live with dignity and comfort as they cope with end of life issues.

We believe:
• Hospice affirms life.
• Hospice recognizes dying as a normal process and so our care provides comfort rather than cure.
• Hospice neither hastens nor postpones death.
• Hospice provides physical, emotional and spiritual care to terminally ill persons and their families.
• Hospice helps the terminally ill person maintain quality of life and helps family members through an extremely stressful time in their lives.

EMERGENCY PREPAREDNESS

IF DISASTER STRIKES

Disaster Recovery

If Disaster Strikes
Remain calm and patient. Put your plan into action.

Check for Injuries
Give First aid and get help for seriously injured people.

Listen to your battery powered radio for news and instructions
Evacuate, if advised to do so. Wear protective clothing and sturdy shoes.

Check for damage in your home...
- Use flashlights—do not light matches or turn on electrical switches, if you suspect damage.
- Check for fires, fire hazards and other household hazards.
- Sniff for gas leaks, starting at the water heater. If you smell gas or suspect a leak, turn off the main valve, open windows, and get everyone outside quickly.
- Shut off any other damaged utilities
- Clean up spilled medicines, bleaches, gasoline and other flammable liquids immediately

Remember to...
- Confine or secure your pets
- Call your family contact—do not use the telephone again unless it is a life-threatening emergency. Use communications plan located in back of this directory
- Check on your neighbors, especially elderly or disabled persons
- Make sure you have an adequate water supply in case service is cut off
- Stay away from downed power lines

The Federal Emergency Management Agency's Community and Family Preparedness Program and the American Red Cross Community Disaster Education Program are nationwide efforts to help people prepare for disasters of all types. For more information, please contact your local emergency management office and American Red Cross chapter. This and other preparedness information is available by calling FEMA at 1-800-480-2520, or writing: FEMA, PO Box 2012, Jessup, MD 20794-2012. Publications are also available on the World Wide Web at: FEMA’s Web site: http://www.fema.gov of American Red Cross Web site: http://www.redcross.org
Through its Ready Campaign

The U.S. Department of Homeland Security educates and empowers Americans to take some simple steps to prepare for and respond to potential emergencies, including natural disasters and terrorist attacks. Ready asks individuals to do three key things: get an emergency supply kit, make a family emergency plan, and be informed about the different types of emergency that could occur and their appropriate responses.

All Americans should have some basic supplies on hand in order to survive for at least three days if an emergency occurs. Following is a listing of some basic items that every emergency supply kit should include. However, it is important that individuals review this list and consider where they live and the unique needs of their family in order to create an emergency supply kit that will meet these needs. Individuals should also consider having at least two emergency supply kits, one full kit at home and smaller portable kits in their workplace, vehicle or other places they spend time.

Recommended Items to Include in a Basic Emergency Supply Kit:

- Water, one gallon of water per person per day for at least three days, for drinking and sanitation
- Food, at least a three-day supply of non-perishable food
- Battery-powered or hand crank radio and a NOAA Weather Radio with tone alert and extra batteries for both
- Flashlight and extra batteries
- First aid kit
- Whistle to signal for help
- Dust mask, to help filter contaminated air and plastic sheeting and duct tape to shelter-in-place
- Moist towelettes, garbage bags and plastic ties for personal sanitation
- Wrench or pliers to turn off utilities
- Can opener for food (if kit contains canned food)
- Local maps

Additional Items to Consider Adding to an Emergency Supply Kit:

- Prescription medications and glasses
- Infant formula and diapers
- Pet food and extra water for your pet
- Important family documents such as copies of insurance policies, identification and bank account records in a waterproof, portable container
- Cash or traveler’s checks and change
- Emergency reference materials such as a first aid book or information from www.ready.gov
- Sleeping bag or warm blanket for each person. Consider additional bedding if you live in a cold-weather climate
- Complete change of clothing including a long sleeved shirt, long pants and sturdy shoes. Consider additional clothing if you live in a cold-weathered climate
- Household chlorine bleach and medicine dropper: When diluted nine parts water to one part bleach, bleach can be used as a disinfectant. Or in an emergency, you can use it to treat water by using 16 drops or regular household liquid bleach per gallon of water. Do not use scented, color safe or bleaches with added cleaners.
- Fire Extinguisher
- Matches in a waterproof container
- Feminine supplies and personal hygiene items
- Mess kits, paper cups, plates and plastic utensils, paper towels
- Paper and pencil
- Books, games, puzzles or other activities for children

EMERGENCY PREPAREDNESS
A CONSUMERS GUIDE TO PREPARING FOR A DISASTER

Creating a Disaster Plan
Meet with your family and discuss why you need to prepare for disaster. Explain the danger of fire, severe weather and earthquakes to children. Plan to share responsibilities and work together as a team.

- Discuss the types of disasters that are most likely to happen. Explain what to do in each case
- Pick two places to meet:
  1. Right outside your home in case of a sudden emergency, like a fire.
  2. Outside your neighborhood in case you can’t return home. Everyone must know the address and phone number.
- Ask an out-of-state friend to be your “family contact.” After a disaster, it’s often easier to call long distance. Other family members should call this person and tell them where they are. Everyone must know your contact’s phone number.
- Discuss what to do in an evacuation. Plan how to take care of your pets.
- Find out where children will be sent if they are in school when an evacuation is announced.

Complete the Checklist
- Post emergency telephone numbers by phones. (fire, police, ambulance, etc.)
- Teach children how and when to call 911 or your local Emergency Medical Services number for emergency help.
- Show each family member how and when to turn off the water, gas, and electricity at the main switches.
- Check if you have adequate insurance coverage.
- Teach each family member how to use the fire extinguisher (ABC type), and show them where it is kept.
- Install smoke detectors on each level of your home, especially near bedrooms.
- Conduct a home hazard hunt.
- Stock emergency supplies and assemble a Disaster Supplies Kit.
- Take a Red Cross first aid and CPR class.
- Determine the best escape routes from your home. Find two ways out of each room.
- Find the safe spots in your home for each type of disaster.

Practice and Maintain your Emergency Plan
- Quiz your kids every six months so they remember what to do
- Conduct fire and emergency evacuation drills:
  Year/ Drill Date________  Year/ Drill Date________  Year/ Drill Date________
- Replace stored water every three months and stored food every six months
- Test and recharge your fire extinguisher(s) according to manufacturer’s instructions
- Test your smoke detectors monthly and change the batteries at least once a year
