

SENATOR ROBERT MENENDEZ  
UNITED STATES SENATE  
NEW JERSEY

November 3, 2011

Dear Friends,

Please accept my best wishes as you gather to celebrate Home Health Aide Recognition Day 2011 at the Robert B. Meyner Reception Center at PNC Bank Arts Center. It is an honor to recognize New Jersey's amazing home health aides for their compassionate care and service.

Each day, compassionate home health aides in every region of our State deliver excellent care. They help patients recover following surgery, perform basic daily activities, and receive rehabilitation services, which enable New Jersey residents to remain in their homes and neighborhoods despite severe illness or disability.

The celebration of Home Health Aide Recognition Day pays tribute to the many exceptional caretakers for their numerous significant contributions. I would like to take this opportunity to recognize Home Care Association of New Jersey and the participating organizations for their long standing service and commitment to excellence in home care.

As a United States Senator, I stand by your tireless efforts to enrich the lives of your patients. Best wishes for a successful and memorable event.

Sincerely,

  
ROBERT MENENDEZ  
United States Senator
